

Starter quick starting 200 ml (A466)

Winter can present problems such as ice on the windshield but can also cause problems for starting your car. This practical spray assist in easily starting diesel and petroleum engines, and it provides protective action on the battery, helping extend its life.

STARTER – QUICK STARTING – Easy starts of diesel engines and gasoline during the winter. It ensures fast ignition even at very low temperatures. It prevents wearing on battery and it extends its life.

How To Use: Spray directly on the air filter or the air intake and then start the engine.

Technical Specifications:

Barcode	EAN: 8034108893457
Quantity	200 ml
Confection	12 Pz.
Aspect	Tin-Plate can containing under pressure fluid
Color	Colorless
Odour	Characteristic of solvent
Relative density	a 20°C 0,56 ÷ 0,60 g/ml
Flash point	-48° C (liquid base) extremely flammable
Pressure at 20°C	4/6 bar
Ignition temperature	+ 273°C (liquid base)
Vapor pressure at 20°C	420 mmHg
Boiling point	36°C (liquid base)

MODALITY OF STORAGE

Before using: stock the product in a dry location and don't stock it with a temperature under 0°C and over 45°C, after the use, keep containers closed. In the original package, the product can be conserved for 24 months (warranty). The product doesn't expire.

After the first usage: conserve in a fresh and dry location, away from hot spring. Keep out of reach of children.
