

Throttle bodies cleaner 400 ml (A469)

This is another can't miss product for mechanics and electricians: this spray cleans throttle bodies by removing residuals and acts successfully on gas exhaust, reducing bad emissions. Making it an eco-friendly spray!

THROTTLE BODIES CLEANER – Last generation cleaner developed for cleaning throttle bodies and intake manifolds that are made out of plastic material. This special formula does not contain substances that are harmful to plastics or rubbers. It removes carbon and oily deposits from the throttle body and the entire intake system. It reduces the emission of harmful exhaust gases. It is suitable to use on motors that have problems caused by dirty valve stems. Capable of improving compression and engine performance. How to use: spray the product directly on the parts to be cleaned or spray the product (inside the intake) intermittently, with the car moving.

Technical Specifications:

Barcode	EAN: 8034108893723
Quantity	400 ml
Confection	12 Pz.
Aspect	Tin-Plate can containing under pressure fluid
Color	Colorless
Odour	Characteristic of solvent
Relative density	at 20°C 0,67 ÷ 0,71 g/ml
Flash point	Und. 0° C extremely flammable
Pressure at 20°C	4/6 bar

MODALITY OF STORAGE

Before using: stock the product in a dry location and don't stock it with a temperature under 0°C and over 45°C, after the use, keep containers closed. In the original package, the product can be conserved for 24 months (warranty). The product doesn't expire.

After the first usage: conserve in a fresh and dry location, away from hot spring. Keep out of reach of children.
